6 February 1993

Dear Mr Sudjono,

We have followed with great interest the recent media reports on the trial hearings of Commander Xanana Gusmao in Dili during the past week

These reports have allowed us to develop an appreciation of the significant role you are fulfilling as the defence lawyer in this complex and important trial We very much hope that your professional efforts will contribute towards a just outcome of this case

It has come to my attention that my name has been mentioned in the indictment read by the prosecution It has been reported that I am named as one of the overseas contacts of the defendant who he appointed as "CNRM representative in Australia" It is alleged that I have "assisted him in the orchestration of anti-Indonesian activities. through a network of communication with the outside world".

Given this, I feel that it would be appropriate for me to be called as a material witness. I therefore like to inform you hereby that I would avail myself for this purpose

I would greatly appreciate establishing personal contact with yourself in relation to the above. I may be reached in Geneva through fax number +41 22 733 0826 or via telephone +41 22 733 5123.

Looking forward to your reply.
Yours sincerely

Jose Ramos Horta
Special Representative
CNRM
